Dear Colleagues

The Korean Academy of Rehabilitation Medicine is honored to invite you to its annually held, the 38th National Congress meeting on October 21-33, 2010. Physical Medicine and Rehabilitation (PM&R) is one of the leading medical fields in Korea that has witnessed dramatic clinical and scientific advancements. From the success we have experienced by hosting the 4th ISPRM, 2007 and from the keen interest we have received from other countries, we have decided to open the annual national congress meeting to those abroad since 2008, in hopes that this move would help to trigger more active research and to foster better relationships between members of different regions.

The organizing committee has invited renowned speakers nationwide to exchange their latest and most up-to-date view of PM&R. Also, the Korean Academy of Rehabilitation Medicine offers travelling awards of US\$500 to an individual participant from abroad whose abstract is selected for presentation in the conference. Seoul is one of the leading cities in technology and with its rich historical heritage and diverse culture dating back for more than 5000 years; it is one of the most versatile and intriguing cities to visit in Eastern Asia. I am confident that you will find the many facets of Korean culture along with the warm hospitality captivating, making your trip to Seoul pleasant and memorable.

We are sure that your valuable contribution and participation in this event will help make the 38th National Congress meeting a success

▣ Visa

Citizens of countries which have reciprocal visa exemption agreements with Korea are not required to have a visa to enter Korea for a short stay. Usually visitors with confirmed outbound tickets may stay in Korea for up to 15 days without a visa. Citizens of all other countries must obtain a visa from a Korean embassy or consulate prior to entering Korea.

▣ Electrical System

Outlets for 220 volts 60 cycles are dominant. Always check the power supply before using your equipment.

▣ Emergency Numbers

Dial 119 for fire and medical attention (ambulance etc.) and 112 for the police.

A local call costs ₩100 for three minutes. To make an international call, first dial the international dialing code (001, 002, or 008), then the country code, area code and finally the individual number. The cost for the telephone call is not included in the hotel fee. You may rent a cell phone at the airport.
